

Pro-Gard™

Pro-Gard is constructed of dual-woven fabric layers made with HMPE fiber.

CHAFE GEAR | PRO-GARD™

Description

A proven light weight chafe protection option for rope that allows for flexibility and easy removal or relocation. The finer inner layer allows the rope to adjust to load, while the thicker outer layer is coated to provide a high coefficient of friction to minimize movement on the contact surface. Lightweight Pro-Gard is easily installed in the field, won't absorb water, and floats. Available in 20", 30", 40", and 50" legs.

The hook and loop feature of this product allows this chafe protector to be easily applied over the rope.

Specifications

Size	Fits Rope Circumference		Covers Splice Circumference	
	Inched	mm	Inches	mm
Size A	3/8" – 5/8"	9 – 16mm	1-1/8" – 2"	27 – 48mm
