

Mooring Shackle

Bow shackles with screw pin

Description

Shackles are used in lifting and static systems as removable links to connect rope and other fittings. Screw pin shackles are used mainly for non-permanent applications. Safety bolt shackles are used for long-term or permanent applications or where the load may slide on the pin causing rotation of the pin.

Material:

Mild steel, untreated, Grade 3

Safety Factor:

Self colored

Specifications

Diameter Bow a (mm)	Diameter Pin b (mm)	Diameter Eye c (mm)	Width Inside d (mm)	Length Inside e (mm)	Width Bow f (mm)	Weight Each g (kg)
32	32	74	64	134	96	4.2
