

The SWOS Difference

A long history of service

At SWOS, our people and products make the difference. Since our founding in 1985, SWOS has demonstrated a complete commitment to service. After more than 30 years, our dedication to our customers has only strengthened.

As a full service rigging shop, we not only provide top quality products, but also partner with customers to assess their needs, target the best products for their application, and customize rigging solutions that maximize operational performance. SWOS has access to the largest selection of cordage in the US, and is renowned for the fastest turnaround times in the industry.

Design and Industry Experts

Our expertise is leveraged in many industry applications including mooring lines for ships and offshore platforms, facing lines for push boats on the inter-coastal waterway and inland rivers, tow lines for haul trucks and dozers on mining sites, winch lines for utility trucks, lifting slings for the construction industry, and even a Horse Collar rescue net for NASA's Orion space capsule. We create all types of rope systems and provide related hardware.
